

Good morning students!

**Today's themes are:**  
The Digestive System  
*(eating)*

# The Digestive System (eating)

# Tell me what you remember from the video?

- People use their \_\_\_\_\_ to eat
- People use their \_\_\_\_\_ to chew food
- The \_\_\_\_\_ helps to taste food
- Food goes down into the \_\_\_\_\_
- The stomach turns the food from solid into \_\_\_\_\_
- The liquid moves into the \_\_\_\_\_
- We get \_\_\_\_\_ from our food
- \_\_\_\_\_ are like vitamins, they give us energy, they help the body to grow and be healthy
- The part of the body that makes food into nutrients is called: \_\_\_  
\_\_\_\_\_ !!

# LET'S GET TO WORK!

**2 Groups -- everyone will get to do everything today!**

- Scratch Programming Team
- Robotics Team

# Scratch Programming Team -- Scratch Challenge!

- Describe the Digestive System and its parts in your animation!
- Ask anyone on the STEM Team if you need help!

# Robotics Team

# SWAP

Now it's time to swap teams everyone!  
Break down your robots and clear your  
Scratch programs!
